

Computing and Online Safety

Meet the Leader

Miss Dearden- Year 6 Teacher, Computing and Online Safety Lead

I have been a member of the Crossflatts family for three years. I began my teaching career six years ago in KS2, therefore I have seen first-hand the impact of technology on pupil's lives as well as their learning. I strongly believe that Computing is vital to the future of our younger children and is now paramount with our ever-changing digital world. I became computing and online safety lead as I am passionate about ensuring our pupils can use and harness technology in a safe, responsible and secure way to reap all the benefits of that the online world can provide.

Our Vision

My main overall vision is to provide our pupils with a broad, balanced, and progressive computing curriculum that will enable them to become confident and competent users of technology in an ever-growing digital world. As a whole-school approach, I aim to equip our younger learners with the necessary skills and knowledge to become successful and responsible digital citizens, who can navigate the online world safely and with awareness of the potential risks and dangers associated with online activity.

Listen to what our children think on the video below:
